

General Sidekick Question

Access Violation

ApplicationCallWndHookProcedure

I think you have the Nimda virus. Here are some links that may help.

http://www.symantec.com/security_response/writeup.jsp?docid=2001-103004-2955-99

<http://support.microsoft.com/kb/291651>

<http://word.mvps.org/FAQs/AppErrors/InsufficientMemory.htm>

Here is a place to get a replacement for your RICCHED20.DLL, I think the fixer on Symantec.com needs a new copy of this file.

<http://www.dll-files.com/dllindex/dll-files.shtml?riched20>
